* The AERO COLOR® Professional Candy colours are, as all AERO COLOR® Professional colours, water- and pigment-based + binder. This special quality feature makes the difference to other Candy colours whose recipes are mostly based on solvents and colorants.

All colours are:

- Highly pigmented, fluid acrylic ink
- Compatible and mixable among each other
- For Airbrush, Liner, brush and drawing pen
- Satin-glossy and highly lightfast
- Ready to use
- For dry and grease-free surfaces such as acrylic and watercolour papers, primed canvas, painting grounds, on structure pastes, wood, cardboard, plastic,....

The described product attributes and application examples have been tested in the Schmincke laboratory. The information is based on our current state of technical findings and experience. Due to the diversity of applications in terms of painting techniques, materials and working conditions, as well as numerous possible influences, this information is based on a general application range. A legally binding guarantee of specific attributes or the suitability for a specific usage purpose cannot be derived from our information; therefore the use of the products must be adapted to the users' individual conditions and tested in trials. For this reason, we cannot provide a warranty for product attributes and/or assume liability for damages that occur in connection with the use of our products.

By the way: Specifics for handling and product safety you will find on our website www.schmincke.de (e.g. download/safety data sheets).

For special questions please don't hesitate to ask our team in the lab!

The best way to get in contact with them is via mail at:
