

50 020 alcoholic retouching varnish

product name:

- Alcoholic retouching varnish.

contains:

- Ketone resin, alcohol, essentials oils.

basic information:

- Retouching varnish for painting in oil based on a high-quality synthetic resin in alcohol.

characteristics:

- Colourless
- neutral/semi-glossy
- non-yellowing and age-resistant
- very fast drying.

handling:

- Shake well before use.
- The product is ready to use, but can be diluted with e.g. alcohol (ethanol).
- May only be applied with a suitable varnish brush after the picture surface has dried, i.e. after 4 weeks at the earliest. Product might soften just-dried oil colours!
- Please clean tools as soon as possible with *alcohol* (ethanol).
- The dried varnish layer remains soluble in *alcohol* or *varnish remover 50060* over a long period.
- The product is not suitable as intermediate or final varnish! It is not possible to overpaint it with a final varnish based on mineral spirit.
- Products based on alcohol cannot be mixed with those based on mineral spirit.
- Close immediately after use.
- Store in a cool and dry place.
- Individual pre-tests are required (see footer).

product labeling:

- Please refer to the individual safety data sheet on our website www.schmincke.de.
