

## 50 052 Eco brush cleaner based on water/alcohol

### product name:

- Eco brush cleaner based on water/alcohol.

### ingredients:

- Water, alcohols, surface-active agents.

### basic information:

- Very effective cleaning agent for painting in oil and acrylic for different painting tools.

### characteristics:

- Very effective
- softens and dissolves also dry colour residues
- biodegradable.

### handling:

- For cleaning painting tools like brushes and palettes.
- Submerge brush only to the ferrule – in accordance to the used lacquers the product might also solve the varnish of the brush handle.
- *Eco brush cleaner based on water/alcohol* is not suitable as thinner for oil colours, oil mediums or varnishes.
- The product is not suitable as a solvent for varnishes and resins.
- Close immediately after use.
- Store in a cool and dry place.
- Individual pre-tests are required (see footer).

### general hints for cleaning brushes:

- Please clean brushes as soon as possible, just before the artists' colours get dried.
- Before cleaning scratch the paint nearly restless out of the brush.
- Brushes should not rest unnecessarily long in brush cleaner.
- Don't place the brush directly on the brush tip – this would deform it's hairs and bristles.
- Also brushes cleaned with brush cleaner should be cleaned thoroughly with water and curd soap after finishing work.
- Brushes should be dried almost at room temperature and not e.g. on a radiator.

### product labeling:

- Please refer to the individual safety data sheet on our website [www.schmincke.de](http://www.schmincke.de).
