

50 559 super retarder

product name:

- Super retarder.

contains:

- Additives, water.

basic information:

- Acrylic medium for stronger retarding the drying time of acrylic colours; ideal for prolonged wet-on-wet painting.

characteristics:

- Jelly-like
- retards drying strong
- preserve consistency
- water-mixable.

handling:

- *Super retarder* is ready to use and should be mixed with acrylic colours on a separate palette in a ratio of max. 50 %.
- The effect depends on the amount of added medium; adding around 20 % extends the colour's drying time by approx. 75 %.
- The product has no properties for film formation and therefore should not be use in pure form!
- The product can be diluted with water.
- Please clean tools as soon as possible with water or water and soap. Just dried acrylic colours can be removed with *brush cleaner 50051 / 50052*.
- Please don't use the product below temperatures under 10 °C object- and room-temperatures.
- Close immediately after use.
- Store in a cool and dry place.
- Protect from frost.
- Individual pre-tests are required (see footer).

product labeling:

- Please refer to the individual safety data sheet on our website www.schmincke.de.
