

## 50 715 AQUA collage

### product name:

- AQUA collage.

### contains:

- Gum arabic, water.

### basic information:

- For adhesion of collage materials working with water-colours.

### characteristics:

- Translucent
- glossy.

### handling:

- Stir – if necessary – before use.
- *AQUA collage* is ready for use and can be used pure or tinted with water-colours.
- The product may never be put directly into the pans. Always use a separate palette for mixing!
- It should be applied with a pallet knife onto the painting ground. Light materials like textiles, silk paper, pigments or sand should be strewed or pressed into the wet medium as soon as possible.
- Suitable grounds: water colour papers or grounds prepared with *AQUA primer, fine 50702* or *AQUA primer, coarse 50703*, like canvas, wood or card board.
- The product is water mixable, but remains water-soluble like a water-colour.
- Please clean working tools as soon as possible with water or water and soap.
- Close immediately after use.
- Store in a cool and dry place.
- Protect from frost.
- Individual pre-tests are required (see footer).

### product labeling:

- Please refer to the individual safety data sheet on our website [www.schmincke.de](http://www.schmincke.de).
