

50 720 AQUA shine

product name:

- AQUA shine.

contains:

- Gum arabic, pearlescent pigments, additives, water.

basic information:

- Medium for water-colours to achieve pearlescent effects.

characteristics:

- Allows sparkling pearlescent effects
- retards drying.

handling:

- Shake well before use.
- *AQUA shine* is ready to use, but might be diluted with water.
- It might be mixed with water-colours or applied pure onto a dried layer of water-colours.
- The product may never be put directly into the pans. Always use a separate palette for mixing!
- Suitable grounds: water colour papers or grounds like canvas, wood or card board prepared with *AQUA primer, fine 50702* or *AQUA primer, coarse 50703*.
- The product is water mixable, but remains water-soluble like a water-colour.
- Please clean working tools as soon as possible with water or water and soap.
- Close immediately after use.
- Store in a cool and dry place.
- Protect from frost.
- Individual pre-tests are required (see footer).

product labeling:

- Please refer to the individual safety data sheet on our website www.schmincke.de.
